

Viridian Systems Limited

Landfill Gas Installation

Viridian Systems Ltd is the leading environmental solutions provider to the UK landfill industry. We can offer a complete landfill gas extraction design & build service or installation of client's design. Our landfill gas installation technicians are all experienced, certificated and fully conversant with the current Industry Code of Practice, ICoP5.

We are also fully conversant with the CDM Regulations and experienced as Principal Contractor.

Our services include;

- Installation of gas extraction systems.
- Trenching and backfilling of pipework systems.
- Fabrication, supply & installation of:
 - Pipe systems
 - Wellheads
 - Manifolds
 - Condensate knock-out pots.
- Condensate Management
- Gas system design including CAD drawings & flow calculations.
- Gas-well drilling.
- Environmental compound works (civil, mechanical & electrical).
- Full C.Q.A. Compliance.
- System condition survey.
- Flow measurement.
- Gas monitoring and field balancing.
- L.V. & H.V. design & installation.
- Repair and maintenance of existing systems to optimise system efficiency.
